

Insect Control

3) Small Outdoor Ant bait station

A small, hard wearing ant bait station designed to make external bait delivery more efficient.

Key product features:

- Weather-resistant unit designed to be in contact with the soil
- Base spike for secure fixing into soil, grass etc
- Easy-access bait chamber filled before placement to prevent accidental spillage
- Adjustable entry holes for easy bait access and return to the ant colony
- Protected bait chamber for longer bait life and environmental safety
- Green colour to blend with the garden environment

4) Gel Canteen Indoor bait station

A patented design, indoor bait station for both ant and cockroach control.

Key product features:

- Transparent for easy monitoring and recharging
- Centre hole for controlled refill with a gel bait syringe
- Total bait protection for maximum effective life and non-target safety
- Keeps bait palatable longer by preventing drying out and maintaining dust-free baits
- Adhesive base pads for fix-anywhere bait placement
